## ABOUT US

@ MXXDPRINTS

We believe great ideas need a voice. We believe that the best music has yet to be made. We believe the greatest leaders have yet to rise. And that our future is brighter than our past. The way we show this is by working with and building relationships that are founded on ideas that push us further. Developing stories that have yet to be heard with people that live on their own terms. Our content and projects focus on producing genuine, clean, and thoughtful content, whether that's with videos or photography, or other mediums, to paint stories for businesses or people that are pushing limits and reaching new heights.

## WHAT WE DO

### PRE-PRODUCTION

Building concepts, narratives, and evoking the proper emotions is what we do. To do that we ask you about your business. We are dedicated to efficiency and a genuine understanding of your needs. These meetings are the bread and butter of meeting your expectations.

### FILM PRODUCTION

In this stage we hire talent, crew and plan the shoot. Religiously. We have a process we can depend on. Which means that sometimes we leave room for flexibility and creative spontaneity depending on the conditions of the work.

### POST-PRODUCTION

This is where we breathe life into your piece. We mix/master audio, color-correct, and edit. We are all very aware of the boring, cheesy content that all companies fear. That is why we exceed industry standards when putting the finishing touches and deliver you the final in the best format for your desired platform

### PHOTOGRAPHY

We also offer professional photography services for social media, advertising, or personal branding. We specialize in portrait, lifestyle and travel/documentary photography.

## OUR PORTFOLIO

What we've done for people
